MATLAB INSTALLATION

STEP 1:

Before Install kindly copy the below link and paste it in the browser and fill the form to use this software.

http://web.iitm.ac.in/licenserequest/

STEP 2:

License Server activation

<u>For Windows:</u>

For communicating with License Manager, host file is to be edited.

Right click on and open **Notepad** via run as an administrator.

In that, **File →open**, then **C: → windows → system32 → drivers → etc**, then select file type as "**All**" to view the files in it and open the **hosts** file and add last line as below and save the file

10.24.0.171   cclicserver.iitm.ac.in   leo

<u>For Linux and MAC:</u>

Make an entry of **cclicserver** in your /etc/hosts file

Open the terminal and type **sudo vi /etc/hosts** and add in the last as below. Then save it.

10.24.0.171   cclicserver.iitm.ac.in   leo

STEP 3:

Running the setup file

For windows:

a) Mount the ISO file using PowerISO software into your local drive and run as administrator the installation file.

b) When installation key is needed, get the installation key from the ftp://ccftp.iitm.ac.in/downloads/softwares/Matlab/ . Then copy the license.dat file from the ftp site and paste it in a file and place in some path. When license file is requested during installation browse and give the license.dat file.

(OR)

Extract the two iso files and make it as a one folder. i.e the content of two folders should be inside the singer. You may copy the contents of DVD2 files into DVD1 folder and run the setup file.

The detailed process of installation was given with the picture from step4. Just take a look of it.

For linux:

a) Mount the ISO file in Linux. using following steps,

1. First, Go to terminal mount in default directory in your machine.
2. Then, mount the disk using command.
3. [xxxx@xxxx] $**mount –o loop <.isofile> <destination_path>**.
4. Go to the path were matlab is mounted (or)If installtion is through CD/DVD come out of /media/MATHWORKSRVersion and be in some other path and give #**sh INSTALL**
5. When installtion key is needed , get the installtion key from the ftp://ccftp.iitm.ac.in/downloads/softwares/Matlab/ (Depending on the version of MATLAB used)
6. Then copy the **license.lic/license.dat** file from the ftp site said and paste it in a file and place in some path. When license file is requested during installation browse and give the **license.lic** file (depending on the MATLAB version used)
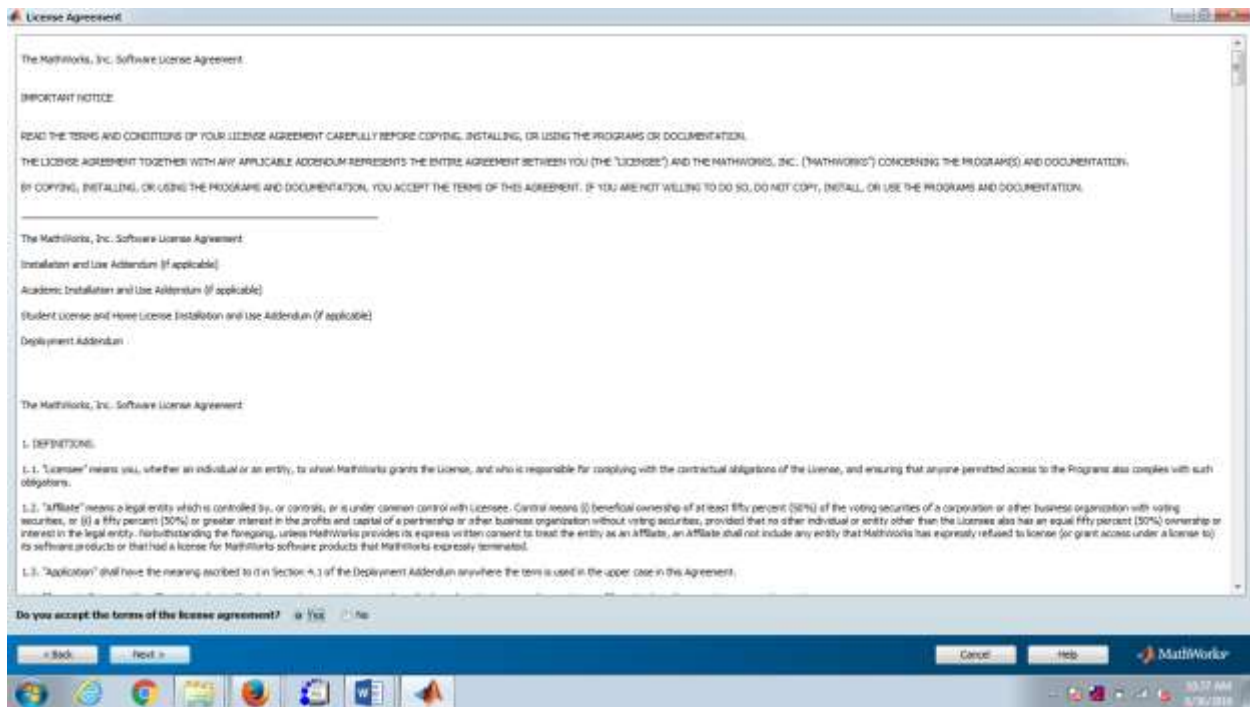

For MAC OS:

b) Double click on matlab file and open **(or)**
c) Mount the ISO file in MAC OS. using following steps,

(i) First, Go to terminal mount in default directory in your machine.
(ii) Then, mount the disk using command.

(iii) [xxxx@xxxx] $**hdiutil mount <.isofile> <destination_path>**.

(iv) Go to the path were matlab is mounted (or)If installtion is through CD/DVD come out of /media/MATHWORKSRVersion and be in some other path and give #**./install**

(v) When installtion key is needed , get the installtion key from the ftp://ccftp.iitm.ac.in/downloads/softwares/Matlab/ (Depending on the version of MATLAB used)

(vi) Then copy the **license.lic** file from the ftp site said and paste it in a file and place in some path. When license file is requested during installation browse and give the license.lic file (depending on the MATLAB version used)

```
                                                       bash
Vs-iMac:Desktop vravi$ hdiutil mount R2016a_maci64.iso
/dev/disk3                                    /Volumes/MATLAB_R2016A
Vs-iMac:Desktop vravi$ cd /Volumes/MATLAB_R2016A/
Vs-iMac:MATLAB_R2016A vravi$ ls
InstallForMacOSX.app    archives          etc            install            java
activate.ini            bin               help           installer_input.txt license_agreement
Vs-iMac:MATLAB_R2016A vravi$ ./install
```

**STEP 4:** Click "Use a file installtion key" and Click Next
STEP 5: Click "Yes" and Click Next.

**STEP 6:** Click "I have the file installation key for my license" and Click Next

Get the license key from ftp://ccftp.iitm.ac.in/downloads/softwares/
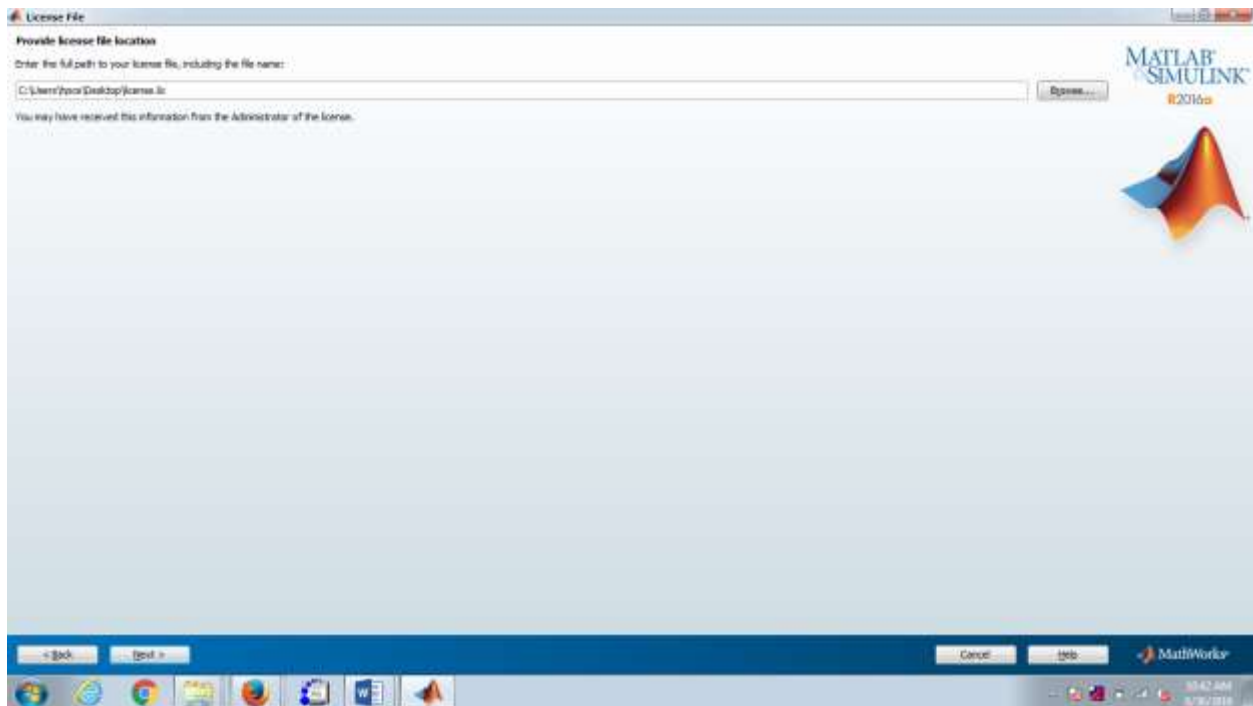

**STEP 7:** Select the installation folder and Click Next

STEP 8: Click Next

STEP 9: Then copy the license file from the ftp site and paste it in a file and place in some path. When license file is requested during installation browse and give the license file Then Click Next

STEP 10: Click "Programs folder on the start menu" and Click Next

STEP 11: Click Install

STEP 12: Click "Finish"
